Thomas J. Vasselli  
College Works Painting  
[REDACTED]

Dear Tom,

I want to thank you for the great job you did working on my house. The siding on the house was first spray washed and then the next day the wooden trim around the doors, the garage door and the shutters were painted. You took your time with me while I was making my decision on the shutter color and made a sample painting to help. You and your crew did an excellent job covering up the shrubbery and plants near the house and none were damaged during your work and you even scraped off the painting around the window panes on the interior of the garage door from a previous painting. As a result, my home looks much better than it did before you started your job here.

I will be happy to recommend you and College Works Painting for future work elsewhere. If you want people to contact me, I will be glad to give a glowing recommendation of the work you did here.

Sincerely,

*Sigrid Byers*
