

To Whom It May Concern:

This letter is in reference of College Works Painting Southern California Division.

My experiences as a Branch Operator intern were some that I will take with me for the rest of my career. Before I was recruited and joined this program I was working at school dining hall. I didn't know there was anything better than these jobs. After I was given the freedom to manage my own business it opened my eyes to a whole new world of passion, excitement, being happy to work, and challenging myself. Through all the training, mentoring, and values that College Works Painting passes on to interns like myself, I am happy to say that my time spent as Branch Operator with College Works Painting positively influenced my life path as well as my life goals.

Sincerely,
Amer Ajanic
Junior, UCSD Economics
