

To Whom It May Concern,

My Name is Richard Harpin and I was a branch manger in College Works Painting. Being a College Works intern was one of the most rewarding and exciting experiences of my life. Being a student at UCSB, I wanted to break into the business field upon graduation and I knew I needed an internship that would provide real-world experience and be a way of getting me one step ahead of every other college student. College Work Painting did all that and more. While in the internship I was able to run my own \$70,000 business in which I learned to do everything from marketing and hiring, to sales and customer service. However invaluable the skills and knowledge I learned throughout the program were, it was the strong friendships and relationships that were formed that were most important. Overall my experience as a branch manager in College Works painting was excellent and I urge anyone that wants a fun, challenging and prestigious internship, to consider College Works Painting.

Sincerely,

Richard Harpin

Branch Manager Central California
