

Dear Sir or Madam:

We were contacted by College Works and immediately admired their honesty and professionalism. We felt very comfortable as they inspected the house and drew up our estimate.

While working on the house we were impressed with their attention to detail and their willingness to make sure we were completely at ease and happy with the work being done. As an example of this, we were pleased to see the workers wash the outside of our windows after they finished painting them. We assure you that that was not on our original estimate, but that did not stop them from doing it anyway.

We confidently recommend College Works to anyone in need of a quality painting job.

Sincerely,

Chris and Samantha Weakland
