College Works Painting

To Whom It May Concern:

This letter of recommendation is for the College Works painting crew with Zack Matush as their operator/manager. Zack was very professional in his approach on the sale and the follow up with interviews and conversations between my fiancé and myself, including the sensitivity in choosing colors and the importance of being happy.

Zack and his crew worked according to the schedule set and completed their job with professionalism and care. The finished product on the house was so impressive that we decided to call the crew back to duplicate the same work on our detached two- (2) car garage.

I would recommend Zack and College Works Painting to anyone who would like the privilege of being a part of a very special program, which teaches college students the business world along with the prize at the end of the rainbow, which is a beautiful job.

Yours truly,

Ed and Christina Ferraro
