

College Works Painting was an amazing experience. Throughout the program I gained endless knowledge through real-life experiences that I could never have gained anywhere else. The major things that I took out of the internship were confidence, organization, and friends. I gained a confidence of myself on a professional level, which enables me to know that I can accomplish anything when I show hardwork, enthusiasm, and consistency. My organizational skills have drastically increased, which allows me to manage my time and schedule, making it possible for me to accomplish everything I want to with little stress. Throughout the program I came into contact with some of the most amazing people I have ever met. There is a sense of unity in the program that lets you know there will always be someone to help if you need it. The program enabled me to know people that are going to have amazing professional careers that they enjoy. Most of all I know we will always be there for each other to give advice on a social or business level. Would I recommend this internship? Definitely, because I have never heard of anyone having such an experience filling someone else's coffee cup.

Thanks a lot Justin!
